

CI+ Certification Process

Certification Process Steps

1. OEM downloads CI Plus Device Licence Agreement from www.ci-plus.com, sends signed contract and payment to CI Plus LLP
2. LLP will provide CI Plus specification, CI Plus test specification and Test Credentials including Test Certificates
3. OEM submits Device for test to Digital TV Labs along with CI Plus Registration Application Device Photograph, Robustness Checklist and purchase order.
4. Digital TV Labs will perform Certification Test and complete the test pass confirmation section of the Registration Application and validate submitted documentation.
5. OEM submits completed documentation to CI+ LLP for Registration.
6. LLP will provide Production Credentials including production certificates.

Digital TV Labs also offers an optional hosting service for debug and optimisation at our Bristol Test Centre
